EXECUTIVE SUMMARY

Senior Software Engineer, Solution Architect, and Apache CloudStack PMC Member with 15+ years of experience building enterprise cloud platforms, big data pipelines, and scalable microservices. Former Vice President at JPMorgan Chase. Proven expertise in Domain-Driven Design (DDD), plant manufacturing systems (replacing Siemens MES), connected vehicle OBD API metering, and open-source governance.

CORE COMPETENCIES

Languages & Frameworks:	Java (Expert), Kotlin (Proficient), Python, Spring Boot, Microservices, Hibernate, REST APIs
Cloud & Architecture:	Cloud Infrastructure (IaaS / Apache CloudStack), AWS (Certified Architect), Domain-Driven Design (DDD), Docker, Linux
Enterprise Systems:	Manufacturing Execution Systems (Siemens MES replacement), OBD API Metering, Data Lake Pipelines (Apache Spark)
Leadership & Build Tools:	Open Source PMC Committer (Apache CloudStack), Certified ScrumMaster (CSM), Security Patching (CVE-2014-7807), Gradle, Maven

PROFESSIONAL EXPERIENCE

Sahaj Software — Solution Consultant Mar 2022 – Present | Remote / Hyderabad

- Automotive & Manufacturing OEM (3 yrs):** Lead engineering partner for India's largest car manufacturer:
 - Architected plant-level manufacturing software replacing legacy Siemens MES across plant facilities.
 - Built end-to-end API metering platform processing OBD gateway telemetry via Spark pipelines into web analytics portal.
 - Engineered enterprise supply chain solutions and connected vehicle platforms using Kotlin, Java, and microservices.
- OOH Media Platform (1 yr):** Designed and developed enterprise Out-Of-Home (OOH) media ad technology platform.

The Apache Software Foundation — Committer & PMC Member Jul 2014 – Present | Remote

- Release Manager for Apache CloudStack 4.6 and 4.10 releases across global open-source community committers.
- Discovered and patched CVSS 7.5 security vulnerability in Apache CloudStack (CVE-2014-7807).

JPMorgan Chase & Co. — Vice President / Senior Engineering Lead Dec 2018 – Mar 2022 | Hyderabad

- Engineering Lead for Data Pipeline Product; built Data Lake ingestion & transformation platform using Java, Spark, and Domain-Driven Design (DDD) API frameworks for multi-platform analytics consumers.

Accelerite & Citrix R&D — Principal Product Engineer / Sr. Software Engineer Apr 2011 – Dec 2018 | Hyderabad

- Core developer for Accelerite & Citrix CloudPlatform (Apache CloudStack IaaS); led LDAP & Nutanix integrations.
- Developed version 1 modules for CloudPortal Business Manager (CPBM), including Payment Gateway & User Lifecycle Management.

lulu.com / uGenie — Software Engineer Nov 2007 – Aug 2010 | Hyderabad / Raleigh, NC

- Developed "Author Spotlight" independent application (Python/Django/PostgreSQL) replacing legacy systems; integrated RRT web service for 3 million users.

EDUCATION & CERTIFICATIONS

Education: B.E. (Hons.) in Computer Science — BITS Pilani (Pilani Campus), 2003–2007 (CGPA: 9.19 / 10).

Certifications: AWS Certified Solutions Architect – Associate (Dec 2021) | Certified ScrumMaster (CSM, Apr 2013).

Honors & Security: Code Gladiators 2018 Finalist | GSoC 2015 Mentor | Security Patch Author (CVE-2014-7807).

Languages: English (Fluent), Hindi (Fluent), Telugu (Native).
